

How did you come to make *Dancing With Gaia*?

I knew Fred Adams from the early '70's, and in 1989 I saw his health starting to decline; I wanted his magic and teachings preserved for more people, so I started to do video interviews with him. Then he pushed me to go interview more people, especially women, and to travel to so many of the ancient sacred sites of Britain and the Mediterranean, so I did that, and that's how it got started. It was an amazing journey, and such a gift, to meet all those teachers.
